A COHORT FOR HR AND L&D PROFESSIONALS

You build capability for a living.

This cohort is for building your own read of the markets.

You spend your days designing how other people learn: the curriculum, the assessments, the standard you will not drop below. Your own money rarely gets the same rigour.

Most market education is noise, tips, and promises. This is the opposite: a structured, assessed, institution grade curriculum you can evaluate with a practitioner's eye, and learn from at a pace that respects a full working week.

Built to a standard you will recognise

You assess learning for a living. This is built the way you would build it: sequenced stages, work-along worksheets, and quizzes that gate progress. Judge the design first. It holds up.

Your money deserves a method, not a tip

No tips, no signals, no promised returns. Bharath Shiksha is an educational publisher inside SEBI's framework, teaching a repeatable method for reading markets and managing risk the way an institution would.

Learn entirely on your terms

Watch on your own schedule, with lifetime access to every volume you buy. A weekly cohort thread and a monthly live question and answer session are there whenever you want company on the way.

The vocabulary already lives in your work

Equity, ESOPs, compensation, financial wellness: the language of markets runs through the modern people function. Knowing it first hand makes you sharper in the rooms where those calls are made.

FROM GRADUATES OF EARLIER COHORTS

In their words.

Graduates from the people and learning function, in their own words.

My dashboards, alerts and notifications are all I refer to these days. This alone cuts out all the unnecessary noise and speculation that usually confuse you.

Prabhakaran Kalyan

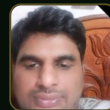

DIRECTOR HR · KHIMJI GROUP OF COMPANIES

It was a good experience with like minded folks. Plus the instructors were very patient and professional.

Sunanda Rajan

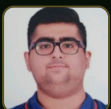

HR MANAGER · CISCO

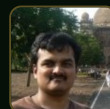

The assessments and weekly assignments are what kept me coming back. That was the only way to learn. Otherwise this all felt like a foreign language to me.

Gautham Subbaraj

HEAD OF L&D · RAJESH TEXTILES

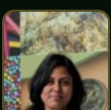

The AI Masterclass, on how to set up a search or an alert with hourly updates on the companies you follow, was worth every bit of it.

Sudhir MuthaiahHEAD OF PEOPLE & CULTURE · UJJIVAN
SMALL FINANCE BANK

Whatever was shown in the webinar was there in the syllabus. Everything as promised.

Krishna Manchu

HR LEADER · SOBHA LIMITED

I took up Stage 2 twice, simply because I could, and that is when things started to click. I use their self study materials, worksheets and journals every single time I buy or sell.

Muskaan Baig

L&D MANAGER · SCANIA INDIA

I highly recommend this course to anyone who only has a couple of hours to spare each week. What I liked most was that they teach us how to create and execute automated systems that work at the click of a button.

Janet Cherian

SENIOR MANAGER HR · SONATA SOFTWARE
