

THE PATH

You don't need another tip. You need a path.

Most traders collect fragments and call it learning. Bharath Shiksha is one structured climb: six stages, your first candle to an institutional desk.

THE FRAGMENT TRAP

You have been collecting fragments, not building a foundation.

A video here, a tip there, a course left half finished. Each piece feels like progress. None of them connect. Two years in, you know a hundred things and can do none of them on demand.

THE FOUR GAPS

- **No sequence.** You learn whatever the feed serves next, not what you need next.
- **No foundation.** Advanced ideas land on gaps, so they never hold.
- **No feedback.** Nothing tells you whether you have actually learned it.
- **No finish line.** You cannot see where this ends, or whether you are close.

A path fixes all four. It sets the order, gates each step, and **shows you the summit.**

WHAT THE PATH PROVIDES

- **A fixed sequence.** Six stages, each gated on the one before. You advance on demonstrated ability, not on time spent watching.
- **A foundation first.** Stage 01 builds the vocabulary every later stage depends on. Advanced ideas land on solid ground.
- **Immediate feedback.** Gate quizzes at 70% close the loop after every volume. You know precisely what you have learned and what remains.
- **A clear summit.** Six stages from your first candle to an institutional desk. You can see exactly where this ends from day one.

6

sequential stages, each gated on the one before. No skipping.

400

hours of curated video across all six stages and three tracks.

70%

the gate quiz score required to advance to the next stage.

One climb. Six stages. First candle to institutional desk.

Each stage is gated on the one before it, so nothing is built on a gap. Here is what changes at each altitude.

01	Foundation	You read a chart and size a risk like a professional.
02	Systematic Trader	Your instinct becomes a written, repeatable system.
03	Professional Edge	You validate an edge with statistics, not hope.
04	Quantitative Edge	You test it in code, honestly, against the data.
05	Systems Architect	You take it live, at scale, and keep it honest.
06	Institutional Elite	You run capital to an institutional standard.

The full contents of every stage are on the next two pages.

THREE TRACKS RUN AT EVERY ALTITUDE

Core trading, technical analysis, and an AI companion are delivered together at every stage. They are not separate courses stitched together. Each track reinforces the other two in the same week of study.

Core curriculum. The mechanics, risk frameworks, process discipline, and psychology that hold a system together under real conditions.

Technical analysis. Chart structure, pattern recognition, and market internals, applied to live NSE data throughout each stage.

AI companion. A dedicated book every stage. Exactly where AI accelerates your work, and exactly where it will mislead you if unchecked.

3

parallel tracks delivered together at every one of the six stages.

1,308

methodology entries in the reference encyclopedia included with every stage.

142

methodologies codified into the Edge Terminal, backtestable on real NSE data.

We will never tell you what to buy or sell. We teach you how to decide.

Six stages. Three tracks run at once in every stage: core trading, technical analysis, and an AI companion. Never tips or signals.
