

● Education First. Not Tips. Not Signals.

THE METHOD

We do not sell information. We build judgment.

Tips and courses hand you answers that expire. A method is the repeatable process that produces your own, on any instrument, in any market.

THE OPERATING SYSTEM

A method is a system, not a stack of lessons.

Information is everywhere and worth little on its own. What separates a professional is a disciplined process, the same steps run on every trade until judgment becomes automatic. Five principles hold ours together.

THE FIVE OPERATING PRINCIPLES

- **Gated mastery.** Every volume ends in a worksheet and a quiz. 70% to advance. You cannot skip past understanding.
- **Process over prediction.** You are graded on how you decide, not whether a single trade won. A journal, R-multiples, and a weekly Bayesian review turn outcomes into evidence.
- **Compliance as a discipline.** No tips, no signals, ever. The restraint that keeps us clean keeps you focused on process, not noise.
- **Three tracks, taught together.** Core trading, technical analysis, and an AI companion move in lockstep at every stage, so theory, chart, and tooling reinforce each other.
- **Practised, not just watched.** Every methodology is applied in the Edge Terminal against historical Indian market data before it touches a live account.

The same five principles run through every stage, in every track.
They are not rules to memorise. They are the operating system of the method.

THE SIX-STAGE ARC OF THE METHOD

THE APPARATUS

The method is wired into the tools.

A method only holds if you practise it. Four pieces of apparatus make that unavoidable.

The Edge Terminal. A practice room that runs any methodology in the curriculum against historical Indian market data. You test an idea before you risk a rupee on it.

The trade journal. Logs every closed trade, computes R-multiples, expectancy, and profit factor, and links your weak patterns back to the exact lesson that fixes them.

The methodology encyclopedia. 1,308 documented methods, each with its structure, rules, and the conditions it works in. Your reference for a career.

Gate quizzes. A worksheet and a quiz close every volume. 70% to move on. The apparatus that makes mastery non-optional.

Every tool above exists to make one thing unavoidable: that you finish this programme a different kind of thinker. **Six stages. Three tracks. What they contain is on the next two pages.**

Stages of historical NSE data to practise on

We will never tell you what to buy or sell. We teach you how to decide.

Six stages, taught in English, Hindi and Kannada. Three tracks run at once in every stage: core trading, technical analysis, and an AI companion. Never tips or signals.
