THE RECEIPTS

Claims are cheap. Here are the receipts.

No profit screenshots, no return promises. Just the depth of the work,
and the standards we publish in the open.

EVIDENCE ON RECORD

METHODOLOGIES DOCUMENTED	1,308
HOURS OF CURATED VIDEO	400+
STRUCTURED STAGES	6

6

Structured stages, Foundation to
Institutional Elite.

400+

Hours of video, growing 20+ a month.

1,308

Methodologies documented.

BY THE NUMBERS

A serious body of work, not a weekend course.

Depth is the first receipt. This is what is actually inside, counted honestly. None of it is a claim, all of it is something you can open and check.

1,308

Methodologies documented, each with its structure, rules, and the conditions it works in.

90+

Video volumes, growing every month.

400+

Hours of video, with 20+ new every month.

6

Structured stages, from Foundation to Institutional Elite.

3

Integrated tracks taught at once: core, technical, and AI.

8

Years of active market research behind every lesson.

7

Day refund window on every single stage.

Open any of it before you pay. Depth you can audit is the opposite of a promise.

The strongest receipt is what we refuse to do.

Anyone can promise an edge. Far fewer will publish the standards that let you check them. We do.

A public compliance whitepaper.

Our full position, in writing, on what we are and are not. Read it before you enrol.

No tips, no signals, ever.

We are an educational publisher, not a SEBI-registered investment adviser or research analyst, and we make no claim of returns.

Judge us by our own framework.

We publish a twelve-question test for evaluating any trading academy, including this one. Use it on us.

A refund window on every stage.

Seven days per stage. If the work is not what we said, you are not locked in.

Confidence is publishing the ruler, then **handing it to you.**

We will never tell you what to buy or sell. We teach you how to decide.

Six stages, taught in English, Hindi and Kannada. Three tracks run at once in every stage: core trading, technical analysis, and an AI companion. Never tips or signals.
