

● Education First. Not Tips. Not Signals.

THE DECISION

You already made the hard decision. This one takes fifteen minutes.

You have spent years, and real money, learning what does not work. The next step is smaller than that. A free fifteen-minute diagnostic that maps where you actually stand, and the exact stage to begin. No pitch, no pressure.

6

Structured stages, Foundation to Institutional Elite.

400+

Hours of video, growing 20+ a month.

1,308

Methodologies documented.

Doing nothing is not free. It is the most expensive option on the table.

There is no neutral year in this market. A year spent waiting is a year spent inside the only pattern the data actually measures.

THE MONEY

₹1.10 lakh

The average losing trader in equity derivatives gave back ₹1.10 lakh in a single year. Every year you wait is another year inside the 91% that figure describes.

THE COMPOUNDING

A method compounds. A tip expires.

The real cost of waiting is not only the money, it is the year of judgment you could have spent building instead.

91%

of individual equity-derivatives traders lost money in FY25.

3 in 4

kept trading after losing. More advice did not change the outcome.

₹1.81 lakh cr

cumulative net loss across three years, FY22 to FY24.

Source: SEBI studies on profit and loss of individual traders in equity derivatives, FY22 through FY25.

You are already paying the cost of waiting. **The only open question is how many more years you pay it.**

YOUR FIRST THIRTY DAYS

This is not a leap. It is a first month you can picture.

You are not signing up for a vague transformation. Here is exactly how the first thirty days go.

FIRST

The diagnostic.

Fifteen minutes, free, no account required. It maps where you stand to the exact stage to begin, so you never waste a month in the wrong place.

THEN

Your first stage.

The volumes open in sequence, each with a worksheet. You are not handed a library to drown in, you are given the next thing to learn.

ALONGSIDE IT

The practice room.

The Edge Terminal lets you apply each methodology to historical Indian market data, before a single live rupee is involved.

AT THE END

Your first gate.

A worksheet and a quiz close the stage. 70% to advance, or you revisit the material. No penalty, no rushing.

- **No subscription required.** Every stage is a one-time purchase. You pay for what you are ready to use.
- **Seven-day refund window.** On every single stage. If the work is not what we said, you are not locked in.
- **Three tracks, always running.** Core trading, technical analysis, and AI, taught together from day one.
- **English, Hindi, and Kannada.** Every lesson available in all three languages, at no extra cost.

Thirty days in, you will not have a certificate. You will have a **method you can already use, and proof you understood it.**

We will never tell you what to buy or sell. We teach you how to decide.

Six stages, taught in English, Hindi and Kannada. Three tracks run at once in every stage: core trading, technical analysis, and an AI companion. Never tips or signals.
