Eight modules. Twenty-eight lessons. The curriculum every active trader wishes someone gave them in their first month.

WHAT YOU WILL BE ABLE TO DO

- Identify forty-five candlestick patterns in real Indian equity charts and judge them in context.
- Run a ten-question pre-trade checklist that mechanically gates every entry decision.
- Compute position size from account risk and stop distance using a single formula — no eyeballing.
- Maintain a four-section trade journal and a weekly review habit that compounds into discipline.
